

BENEFITS OF USING PROFESSIONAL OFFICE CLEANING SERVICES

Employees who are able to work in a clean, healthy office often have less sick days and are more productive. A commercial office cleaning service enables you to focus on running your business and not the daily removal of dirt, grime and more from your facilities. There are multiple benefits of using a professional office cleaning service such as ServiceMaster Clean. Here are just five:

5 BENEFITS OF PROFESSIONAL COMMERCIAL OFFICE CLEANING

Healthier work environment

Better first impression for everyone

Less hassle for you

Accommodates your business schedule

Clean done right the first time

PROFESSIONAL OFFICE CLEANING FOR HEALTHIER WORK ENVIRONMENT

Bacteria, allergens and germs are everywhere. Employees as well as customers and visitors can easily spread illness by simply touching surfaces such as desks, computer keyboards and door handles. Regular professional office cleaning that includes dusting, vacuuming, mopping and other cleaning can improve the health of your work environment as it reduces the presence of bacteria, germs, and allergens in the workplace. Allergens such as dust mites and mold spores can trigger allergy and asthma symptoms, possibly resulting in sick days and reduced productivity.

CLEAN OFFICE = GOOD FIRST IMPRESSION

Customers and visitors will feel more welcome and happier entering an office that has stain-free carpets and reception area seating as well as dust-free lighting fixtures and a clean bathroom stocked with paper goods and full soap dispensers. You'll feel confident meeting with customers and guests in a conference room that smells fresh and looks clean to even the most discerning eye.

COMMERCIAL OFFICE CLEANING: LESS HASSLE FOR YOU

Running a business takes a lot of time and you shouldn't have to worry about routine chores like vacuuming the lobby or restocking the paper towels in the restrooms. A professional janitorial service eliminates the hassle of removing the daily grime from your facility. Our ServiceMaster Clean janitorial services can accommodate any schedule - we have teams that can clean daily, weekly or monthly as well as day-time only cleaning services.

OFFICE CLEANING DONE RIGHT

It's important your employees have a clean work space and that your customers are impressed with the look of your office each time they visit. A regular office cleaning team can ensure all your needs are met. When our cleaning professionals combine their expertise, we have more than 65 years of experience in the industry, with technologically advanced equipment and high-quality cleaning products. We promise to get the job done right the first time.

Contact our ServiceMaster Clean commercial cleaning specialists to discuss which office cleaning services may best suit your business or facility.
